

Marco's 'LMZ³' is now...

centricore™

delivering all **3** macular carotenoids

Lutein
Zeaxanthin
Meso-Zeaxanthin

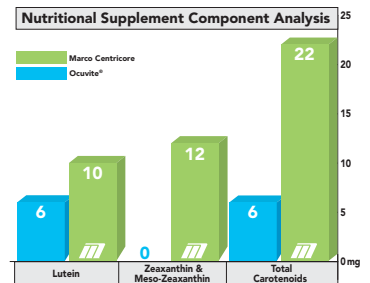

Studies have shown that a daily dose of at least 10 mg of carotenoids can increase macular protective pigment density. Centricore delivers **all three** carotenoids in an easy-to-take, once-daily, vegetable capsule.

Centricore contains:

- **10 mg Lutein**
- **10 mg Meso-Zeaxanthin**
- **2 mg Zeaxanthin**

Centricore simply provides an enhanced carotenoid formulary to maximize positive results for your patients--without any additional, contraindicated components--and in a single, compliance friendly, once daily dosage.
