

ReMarco Visualization

“While we were researching our Slit Lamp options, we down-loaded a lot of information from many manufacturers. Ultimately, we decided the Marco **G5 ULTRA SLIT LAMP** fit our needs best. In addition to being user-friendly, the clarity of field is unbeatable. I especially like the illumination feature, which lets me fine-tune the amount of light entering the eye. Marco slit lamps provide much better visualization than other slit lamps in our office.”
