

ReMarco truths

“In the clinic, the slit-lamp remains the cornerstone of my ability to render high quality care for my patients.

I have used many different slit lamps over my thirty-two year career but none have impressed me with the optics and ease of use of the Marco **G5 ULTRA**. After researching the alternatives, I chose the G5 for my new practice because of its quality, value and Marco’s after-purchase support. My practice’s professionals and technicians agree that this was a very good decision.”

—J.C. Noreika, MD, MBA • Medina, Ohio
